It is the author's responsibility to prepare a completely correct poster material ready for presentation, within the maximum frame of the poster board.

The Author should install his/her poster by using pins which are available at the Symposium site. Please use only material which is not too heavy and which can be fastened with pins.

Use English for the contents. Please prepare the contents of your poster so that it is easy to read from a 1-meter distance. Use the same title which you have used in your abstract.

Authors are responsible for dismantling their posters after the Symposium. The Symposium organizers do not take responsibility for posters that are not removed after the scheduled poster dismantling time. Forgotten posters will not be mailed after the Symposium.
